NIHR Clinical Research Network Thames Valley and South Midlands (LCRN)

The LCRN is supporting studies into COVID-19. These include people who have tested positive being asked to donate samples for analysis and hospitalised patients having the opportunity to receive possible drug treatments.

[Print](#)

Priority is being given by the LCRN to nationally prioritised COVID-19 studies and staff not working on these studies will be redeployed to frontline care if required. Visit the website below to be kept up-to-date about research into COVID-19.
