[Disabled Living Foundation information on finding suitable footwear](#)

Links to shoe manufacturers

The following shoe manufacturers have been used by some of our Members:

[Ecco shoes](#)

[Howorth's online](#)

[Clarks](#)

[Hotter shoes](#)

[Wider fit shoes](#)

Conclusion

Managing people's foot and leg problems that are associated with RA often will involve the podiatrist working closely with other members of the multi-disciplinary team. As such, the rheumatology team will try to ensure that problems are addressed in a timely and appropriate manner, reflecting the needs and wishes of the individual who has RA.

Guidelines and Standards in the UK:
